Subject: Re:... interactive impact assessment tool ...Form submission from: Emergency Response to Gold King Mine Release Contact Us About Emergency Response to the Gold King Mine Release form

Hello,

The US EPA has prepared the following information resource:

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>
Regular updates will be posted as they are available.
EPA Hotline: 844-607-9700 (toll-free)

Comments: VITO NV (Belgium, www.vito.be) has recently developed an interactive impact assessment tool that allows to calculate the river basin impact of incidental releases related to mining industry. The tool is ideally suited for predictive modeling and impact simulation on downstream receptors. Just contact me if you need more information.
